Continuous learning

## **EXPERIENCE**

Perla IT, Nagpur

# Software Developer Intern

02/2025 - Present

Nagpur

• Software Developer Intern working on a School Management Software project.

- Developed responsive, role-based web applications using HTML, CSS, JavaScript, and React.js, optimizing UI performance and cross-browser compatibility.
- Integrated **RESTful APIs** with **Node.js and Express.js**, enabling secure data flow between frontend and backend.
- Collaborated in an **Agile/Scrum environment**, contributing to sprint planning, code reviews, and version control with **Git/GitHub**.

## **PROJECTS**

## 1. PORTFOLIO: ℰ

- Developed a responsive and interactive personal portfolio using **React.js** to showcase projects, skills, and contact information.
- Implemented component-based architecture for better scalability and code reusability.
- Used React Router for smooth navigation between pages like Home, About, Projects, and Contact.
- Deployed the project using GitHub and Vercel .

# 2. EXPENSE - TRACKER: ∅

- Developed a full-stack Expense Tracker using MERN Stack.
- Enabled users to add, delete, and categorize income and expenses.
- Implemented real-time balance calculation and transaction history.
- Built secure **REST APIs** for data management and storage in MongoDB.

## 3. TO-DO App: *⊗*

- Built a full-stack To-Do application using **MERN stack**.
- Implemented Create, Delete operations to manage tasks.
- Designed a responsive UI using React and CSS.
- Used **RESTful APIs** for seamless frontend-backend communication.
